

Ismail Ibrahim Abass Salem

Data Science & AI | Python | Machine Learning | Data Analysis

✉ nerovirusismail@gmail.com | ☎ 01050132744 | 🔗 [linkedin.com/in/ismail-ibraheem](https://www.linkedin.com/in/ismail-ibraheem) | 🐙 github.com/Ne40

Summary

I am Ismail Ibrahim, focused on Data Science and Artificial Intelligence, with hands-on experience in Python, data analysis, data visualization, and Machine Learning. I build practical projects that turn raw data into useful insights and predictive solutions, while continuously investing time in technical learning and real-world experience.

Education

Ahram Canadian University (ACU)
B.Sc. in Computer Science

SEP 2024 – JUN 2027
Cairo, Egypt

Training & Experience

Digital Egypt Pioneers Initiative (DEPI)
Data Science Trainee & Team Leader

JUL 2026 – DEC 2026
Cairo, Egypt

- Invested **216 hours** over **6 months** in Data Science training covering Python, data analysis, visualization, and Machine Learning.
- Served as **Team Leader for 24 members**, coordinating communication, task distribution, follow-up, and delivery throughout the program.
- Worked with technical teammates on practical projects involving data cleaning, analysis, visualization, and Machine Learning.
- Led the team in creating a **PowerPoint presentation from scratch**, covering research, content planning, design, preparation, and final delivery.
- Strengthened communication, leadership, teamwork, organization, and problem-solving through hands-on team projects and presentations.

Information Technology Institute (ITI)
Artificial Intelligence Trainee

AUG 2026 – SEP 2026
Cairo, Egypt

- Invested **90 hours** in practical AI training covering Artificial Intelligence and Machine Learning concepts.
- Applied the concepts through hands-on exercises and projects focused on data preparation, model building, and evaluation.
- Developed practical problem-solving skills by turning theoretical concepts into working solutions.

Vijua
Front-End Intern

JUL 2026 – AUG 2026
Cairo, Egypt

- Invested **216 hours** in hands-on Front-End development using HTML, CSS, and JavaScript.
- Built and improved web interfaces while working in a collaborative development environment.
- Gained practical experience in teamwork, communication, feedback, and completing development tasks.

Projects

Device Price Prediction
Machine Learning Project

🐙 [GitHub](#)

- Built a Machine Learning solution to predict device prices from their specifications.
- Used Python for data preparation, analysis, model training, and evaluation.
- Implemented and compared **3 Machine Learning algorithms** to evaluate predictive performance.
- Outcome: developed a working price-prediction pipeline connecting device specifications with estimated prices.

YallaKora Data Analysis & Visualization
Data Science Project

🐙 [GitHub](#)

- Collected data from YallaKora and prepared it for structured analysis.
- Used **Pandas, NumPy, and Matplotlib** for cleaning, analysis, and visualization.
- Explored the dataset to identify patterns and insights and presented findings through visualizations.
- Outcome: transformed raw sports data into a cleaned, analyzed, and visualized dataset.

StudyYou — Collaborative Study Platform

Web Development Project

 [GitHub](#)

- Developed a web platform that allows users to study together in shared rooms.
- Used **HTML, CSS, and JavaScript** to build the interface and interactive functionality.
- Outcome: created a collaborative study environment where users can join shared rooms.

LateAgain — Task & Project Management Platform

Web Development Project

 [GitHub](#)

- Developed a web platform for organizing tasks and projects.
- Used **HTML, CSS, and JavaScript** to build the interface and task-management functionality.
- Outcome: created a simple system for organizing project work and tracking tasks.

Attendance Management System

C# / .NET Project

 [GitHub](#)

- Developed a C#/.NET system to organize and track attendance and absence records for bus participants.
- Implemented record management and attendance tracking to make the workflow more organized.
- Outcome: replaced a manual attendance workflow with a structured digital system.

Volunteer Experience

Resala Charity

Volunteer / Children Activities Team

SEP 2023 – JUL 2026

Cairo, Egypt

- Supported the organization and delivery of activities and events for children as part of the volunteer team.
- Coordinated activities, worked with other volunteers, and helped ensure events ran smoothly.
- Developed leadership, communication, teamwork, organization, and problem-solving through direct responsibility and field work.

Rotary

Volunteer

AUG 2026 – PRESENT

Cairo, Egypt

- Participate in community activities and volunteer initiatives as part of a collaborative team.
- Contribute to planning, coordination, and execution of activities with other volunteers.
- Develop communication, teamwork, organization, and responsibility through practical volunteer work.

Skills

Data Science & AI: Machine Learning, Data Analysis, Data Visualization, Pandas, NumPy, Matplotlib

Programming & Development: Python, C#, .NET, JavaScript, HTML, CSS

Databases & Data Tools: SQL, Excel

Development Tools: Git, GitHub

Productivity & Presentation: Microsoft PowerPoint
